Between the sky and the sea-her power

—Exclusive interview with Australian contemporary artist Sonia Payes

In 2023, on the eve of World Environment Day (June 5) and World Ocean Day (June 8), an art dialogue exploring the theme of the symbiotic relationship between human beings and the earth will be held in the Australian contemporary artist Sonia Payes (Sonia Payes) The art studio in Prahran, Melbourne is slowly unfolding. Sonia's photography and sculpture works have not only been invited to art exhibitions in Australia and around the world, but her art stories and ideas have also become hot topics in VOGUE, Art Wall Street, and wealth circles. This art dialogue is hosted by the famous Chinese poet and art critic Aileen Moka.

In the interview, Sonia shared the works of art exhibited in various parts of Australia in recent years. She used three-dimensional sculptures to recreate her daughter's facial expressions in lines and digits, presenting a unique art form. Sonia uses Australia's natural scenery and geographical characteristics to deeply integrate with sculptures, forming a unique cultural landscape. The sculpture group standing in the sunset guards the quiet Pacific Ocean. The streamlined curved surface not only reflects the ever-changing light and shadow, but also reflects the unpredictable interactive emotions between the portraits and all things. The passage of time, the evolution of time and space, and the infinite blank space are intertwined, creating a fleeting and changing image, triggering countless passions for exploration and discovery, and making people rethink in the natural energy field: this The living planet is not only our siege, but also our hope to reshape the future. What kind of posture should human beings take to live in harmony with it?

Her cheeks undulate on the ocean and beach, extending from the cliffs and cliffs; it is the imagination of the rippling blue waves, and the endless growth of lush greenery. Whether it is an iconic Australian beach or a rural oasis, Sonia's sculptures are rooted in the region and integrated into the environment, blending with the local culture and nature, with a low-key restraint and natural tranquility. At the same time, the artistic tension emerging from the ground is also a metaphor for the mutual perception, endless life, and shared destiny of human beings and natural landscapes. With the opening and evolution of cognition, the process from static isolation to interactive integration becomes natural and transparent.

There seems to be light among the mountains and rivers. The natural landscape where Sonia's sculptures are located provides the public with a place to rest and meditate, a place to roam among the dimensions of nature, time, and space. Here, individual vitality can be explored and discovered, allowing thoughts to drift between consciousness and unconsciousness, material and non-material, and through the participation of every individual with fresh vitality, an intimate relationship between human beings and nature is built.

索尼娅的艺术是一种信仰和抱负。通过记忆和意识的更新与过滤，她逐步构建出了属于自己的艺术脉络，正如她的作品在漫长的演变过程中，探索了人类不断适应地球多变环境的能力。在索尼娅的职业生涯中，她将自己的基础摄影作品与数字图像、3D 技术、动画电影和雕塑相结合。她的作品经常探索和审视人类面临的关键问题，如“平行未来”和“再生”等，这些问题涉及人类与自然所面临的重要议题。艺术对话进行时，索尼娅引领着我们穿越了几十年的探索历程，共同见证她艺术生涯的蜕变、裂变与蝶变的往复与迭代。

成长是生活磨砺中的坚韧与无畏，是厚积薄发时的淡定与从容，是认知提升后的多元与包容。在面对探索人类与地球共生关系这样的深刻主题时，澳大利亚的艺术家们从未缺席。当代艺术家索尼娅·佩斯的所有讯息，无不透露出她独立女性艺术视角对于世界的爱与关注。

海天之间，她视角，她力量。索尼娅的作品探讨了冰与火的极端环境将给人类带来的灭绝性，以及人性化焦点对于自然的破坏性和未来的不确定性。愿这种探讨可以引发更多关注，引起深度共鸣。
